The Pipe of Peace.

What is the magic of a corncob pipe? No matter how peevish or irritable my husband may be, when he is smoking his Missouri meerschaum he will do anything I ask. Couldn't something about corncob pipes be put in the marriage ceremony?—Philadelphia Public Ledger.

The most knowing and deliberate business men realize that the available supply of basic materials for human use and consumption is many times less than the world will need for some years to come. This is the inevitable result of four years of systematic destruction without replenishment in every quarter of the globe.

Retailers of foodstuffs lower their prices to meet changing conditions with great reluctance. If consumers will watch the newspapers and insist that their grocers follow the price trend, considerable relief will be afforded and profiteering will be snubbed up short.
